

WEBINAR

## **LOWER CARBON, ESG, AND SUPPLY CHAIN: PART 2**

● NOVEMBER 7, 2023 | 9 AM - 10:30 AM CDT

Following our successful Part 1 webinar, the PIDX Emissions Transparency Data Exchange (ETDX) workgroup will showcase its progress in the Scope 3 Emissions reporting standard and continued collaboration with the WBCSD PACT framework, the World Business Council for Sustainable Development's Partnership for Carbon Transparency (PACT).

This webinar will demonstrate the interoperability between trading partners when suppliers submit Scope 3 Emissions data to their customers using the PACT-conformant standard in PIDX transactions.

Learn how the reporting method has minimal impact for current PIDX users, as it is backwardly compatible with all current versions of the PIDX standards across the industry and can, therefore, be adopted immediately.
