PIDX_RN_Revision_Tasks
PIDX/RN Specification Revision Project
Task List

1) Security
   a. Mandatory use of digital signatures (addresses recommendation 2.1.4 from PIDX/RN analysis project)
      - DigitalSignatureMandatory.doc (Charles Sewell)
      - Status – Submitted for review (3-14-2007)
   b. Data encryption guidelines (address recommendation 2.2.4 from PIDX/RN analysis project)
      - PayloadEncryptionGuidelines.doc
      - Status – Submitted for review (3-14-2007)
2) Adoption of multi-action PIPs (address recommendation 2.3.4 from PIDX/RN analysis project)
   - Two-Action PIDX Invoice.doc (Swami Ranganathan)
   - Status – Submitted for review (3-12-2007)
3) Deprecation of non value PIDX additions to the RosettaNet2.0 specification (addresses recommendations 2.4.4 and 2.5.4 from PIDX/RN analysis project)
   - ItemsDepricated.doc (Charles Sewell)
   - Status – Submitted for review (3-16-2007)
4) Adherence to RosettaNet2.0 standard
   a. Guidance for how and when to use the Notification of Failure document to communicate out-of-bounds exceptions (address 2.6.4 from PIDX/RN analysis project)
      - NotificationOfFailure.doc (Charles Sewell)
      - Status – Submitted for review (3-16-2007)
   b. Adherence to RosettaNet2.0 standard is mandatory for PIDX compliance (address 2.9.4, 2.10.4, and 2.11.4 from PIDX/RN analysis project)
      - NonCompliance.doc (Charles Sewell)
      - Status – Submitted for review (3-16-2007)
5) Process Specific Details
   a. RN header values defined for all PIDX PIPs (address 2.8.4 from PIDX/RN analysis project and complete the PIDX_RN_PIP_ParameterMatrix spreadsheet)
      - Pending (Steve Robinson)
   b. Samples for all transactions (appendix to address 2.7.4 from PIDX/RN analysis project)
      - Pending (Steve Robinson)
6) Development of PIDX/RN deployment guide (address 2.12.4 from PIDX/RN project)
   - RnSpecInterdependence-v11.doc (Gary Strickland)
   - Status – Submitted for review (3-13-2007)
