

2022 A YEAR IN REVIEW

PIDX NEWLY ELECTED PRESIDENT

PLEASE JOIN US.
#PIDX2023

2022 was another transforming year for PIDX, we were back to in person events and we were grateful to host 3 wonderful conferences, two in North America and one in Europe. The Energy industry gained enormous relevance due to the energy security concerns, and that has put our industry as top priority on the agenda of countries, governments and organizations globally. This gives us an opportunity to make a positive impact in the society and the world.

I am excited for what the future will hold for us in PIDX in 2023, bringing an exciting year ahead to increase innovation, technology and collaboration across PIDX members and community. Do not miss out on it! These are exceptional times to be part of the Energy Industry. Please get involved with us. Make this 2023 the year you join a project committee, a webinar or the year you join us in a conference in person.

We look forward to seeing you, and we look forward to a wonderful 2023 year ahead with your participation.

- Iris Salinas, SLB, Global Product Owner Marketing Intelligence
