

PIDX INTERNATIONAL

2022 MID-YEAR NEWSLETTER

A WORD FROM THE BOARD

The first half of 2022 has been a busy time for PIDX. Not only have new standards been released, the collaboration with the Open Footprint Group on Emissions Reporting is showing good progress with Proof of Concepts being developed to exchange actual Emissions Data in the Supply Chain.

We have also seen a number of new industry executives from member companies join the PIDX management team, not only chairing workgroups and committees, but at Board level too, the PIDX Community is as strong as ever.

Face-to-Face conferences and Member's meetings have been run in Houston and we have restarted the European PIDX Outreach events hosting our first conference for 3 years in London.

As we look to the next six months we will see the Emissions Reporting work start to gain more practical implementations, the Industry Data Exchange project will provide API access to Downstream Master Data Codes managed by PIDX and we will also host new webinars along with our Fall Conference in Houston.

Being involved in PIDX is a real privilege. We are group of industry professionals developing standards for the industry to be used by the industry for many years to come.

- Chris Welsh, COO and Chairman of the PIDX Board

NEW PIDX MEMBERS

PIDX Members demonstrate their leadership and commitment to realizing the promise of a truly global, interoperable eBusiness environment for our industry, through their financial support and the commitment of their employee resources in the standards development process.

PIDX SPRING CONFERENCE

JOURNEY TO NET ZERO: THE IMPORTANCE OF EMISSIONS TRANSPARENCY IN THE SUPPLY CHAIN

PIDX PROJECT TEAMS

PIDX STANDARDS IN DEVELOPMENT

EMISSIONS TRANSPARENCY DATA EXCHANGE (ETDX):

Standards for data exchange regarding carbon emissions and using automation to enable reporting to various stakeholders.

INDUSTRIAL DATA EXCHANGE PLATFORM FOR DOWNSTREAM TERMINAL MASTER DATA:

Build an API-driven data exchange platform for the PIDX Downstream Codes. Part of this project also includes providing the industry with a standard protocol to transmit data sets that include customers, partners, carrier/hauler information and product information.

PIDX BILL OF LADING IMPLEMENTATION GUIDELINES:

Gain industry consensus and document the Implementation Guidelines for PIDX Bill of Lading, clarifying that negative values cannot be used for product quantities.

PIDX EUROPEAN CONFERENCE

JOURNEY TO NET ZERO: REDUCING FUTURE EMISSIONS THROUGH COLLABORATION IN THE SUPPLY CHAIN

Keynote Speaker:

"Despite the rail strike, it was a great opportunity to catch up with colleagues new and old who share a common interest in leveraging e-commerce standards to drive emissions transparency with their supply chain partners." - **Andrew Mercer, Baringa Partners**

STANDARDS ADOPTION COUNCIL

"The journey from adopting a standard to delivering a business outcome in the real world is often fraught with challenges. We expect the **Standards Adoption Council** to create a community of industry members that collaborate and help each other in this journey. This is one more initiative by PIDX to add value for its members."

Amit Sethi, PIDX Board Member and regional Digital Technology leader for Baker Hughes in the Middle East, North Africa, Turkey, and India (MENATI)

WHY MEMBERSHIP IN PIDX

PIDX Enables eBusiness

Enabling your digital supply chain is a natural evolution once internal systems and processes have been e-Enabled

Remove Paper, Automate Workflow, Remove Dual Data Entry

Single Source of Data Entry, Reduced Transcription Errors, Using Common Data between Partners

Data Entry, Printing & Paper Handling

Data is Exchanged in a Secure and Auditable Way, All Transactions are Recorded in a System

Exchange of Business Documents takes Minutes; Acknowledgement of Delivery is Automatic
