

# **VIRTUAL SPRING CONFERENCE**

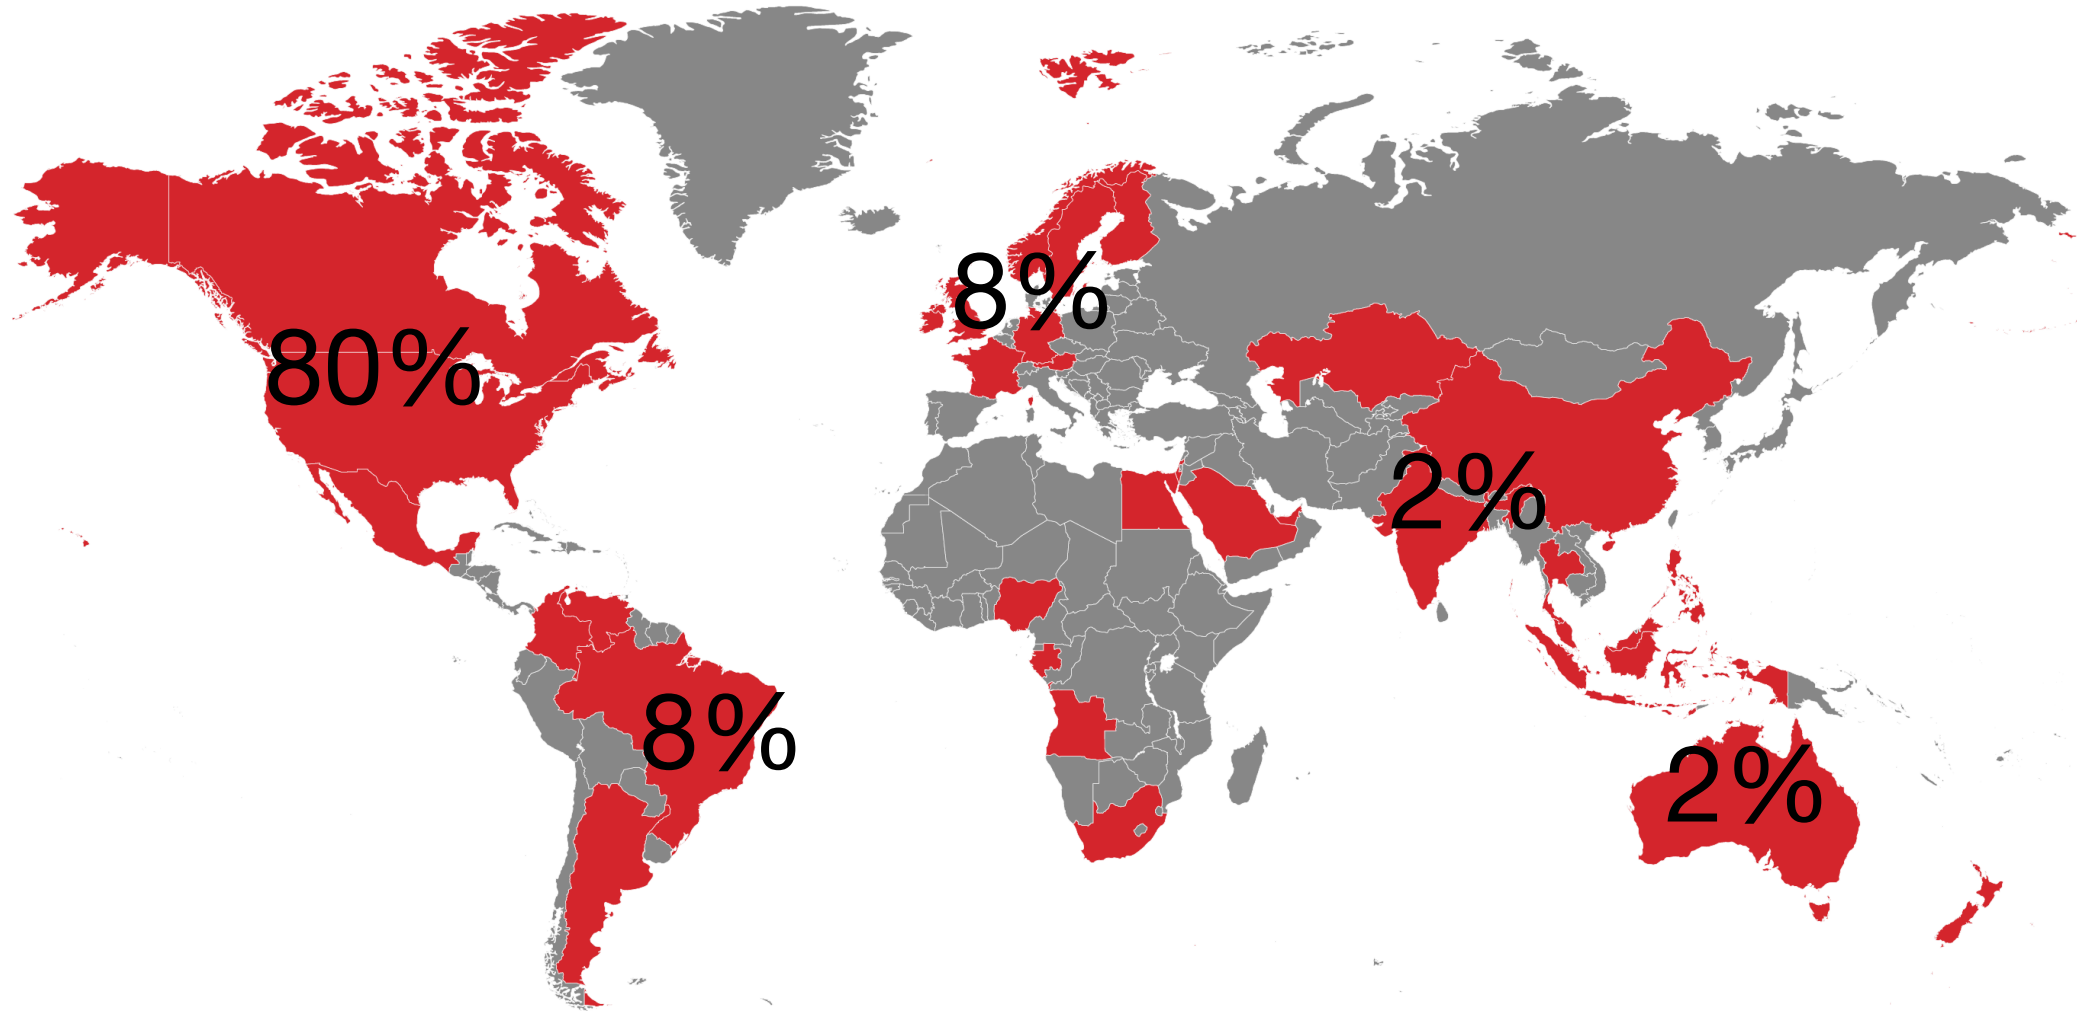

22nd April 2020 / 0830 to 1230 CDT

PIDX Board Room

# Adoption Council @ PIDX

# USE OF PIDX STANDARDS WORLDWIDE

# The Need for Adoption forums @ PIDX

- Journey from Standards to Adoption and Outcomes for PIDX Members
- Improved Engagement of PIDX members in resolving challenges encountered during adoption
- Setup of Focus groups to address specific challenges encountered during adoption

# PIDX Standards Adoption

## Opportunities for Collaboration

- Business process standardization + Master Data Harmonization
- Technology Modernization
- Limited adoption of few standards
- Cultural challenges/regional laws
- Security threats and data privacy
- Engagement with intermediaries

## How PIDX can enable ?

- Promote standard solutions with broadest possible appeal
- Use technology to enhance rather than replace, when it makes sense (e.g. to minimize cost or business disruption)
- Scale existing solutions to create value for both partners
- Collaborate on country specific adoption challenges with regional representation
- Share best practices on cybersecurity & data privacy laws
- Membership of intermediaries on adoption councils

# Deep Dive: Culture challenges/regional laws

## Opportunities for Collaboration

## How PIDX can enable ?

### Identify barriers that prevent adoption & realization of outcomes

Barriers across people, processes & policies. Challenges/ Pain Points

- Adoption of PIDX standards by NOCs in Middle East

### Identify solutions needed to overcome these barriers

Let's be generative. Think of solutions

- Influencing NOC management about benefits of adopting PIDX standards

### Identify support needed from PIDX adoption councils

Think of ideas/answers for the "How might we..??"

- Empanelment of NOCs on PIDX
- Case studies sharing global/regional adoption & benefits
- Discussion on specific bottlenecks in adoption
